Dairyland Power Encourages Dam Safety Awareness

LADYSMITH, WI— Dairyland Power Cooperative is a supporter of National Dam Safety Awareness Day, designated as May 31. The National Dam Safety Program, which is led by FEMA, is a partnership of state and federal agencies to provide dam safety guidance.

Find dam safety education at dairynet.com

Dairyland's 24 MW Flambeau Hydro Station is located five miles northeast of Ladysmith, Wis., on the Flambeau River. As we head into summer, recreational activity increases on waterways. Water safety near hydroelectric dams is critically important when boating, swimming or fishing in the general area.

Residents of the Ladysmith area and any interested member of the public has access to dam safety education, emergency contact notification registration, water data and dam-related mapping on Dairyland's website. Go to www.dairynet.com, then click on Energy Resources-Renewable Resources-Flambeau to learn more.

About Flambeau Hydro

The Flambeau Hydro Station has been generating clean, efficient water-powered electricity since 1951. Throughout the year, Dairyland welcomes area residents and visitors to enjoy the many recreational opportunities available on both the Reservoir and the public land surrounding it.

With headquarters in La Crosse, Wis., Dairyland provides wholesale electricity to 25 member distribution cooperatives and 17 municipal utilities. A Touchstone Energy Cooperative, Dairyland's service area encompasses 62 counties in four states (Wisconsin, Minnesota, Iowa and Illinois). Dairyland's generation resources include coal, natural gas, hydro, solar, wind, biomass, landfill gas and animal waste. For more information, please visit www.dairynet.com.
